Overall University Experience .....	2
Extra-curricular and Co-curricular Activities .....	7
General Skills .....	8
Program Experience .....	9

## **Methodology**

The Graduating Student Survey was created to gather information from ERAU students who have graduated or are planning to graduate during the listed academic year. The instrument includes questions on employment, additional education, general education and program specific learning outcomes. Participation allows ERAU to establish placement rates, track the pursuance of higher education, respond to accreditation requirements, and assess the curricula. The Graduating Student Survey was sent to students from both Daytona and Prescott campuses listed as prospective graduates approximately two months prior to graduation. The survey was completed and submitted in an online format. N=558.
