

EMPLOYERS AND THEIR COMPANIES

The first section of the 2000 Employer Feedback Survey asked employers about themselves and their company. Questions consisted of the number of ERAU graduates they know professionally, the number of ERAU graduates they supervise, if they prefer to hire ERAU graduates, and if they are an ERAU graduate themselves.

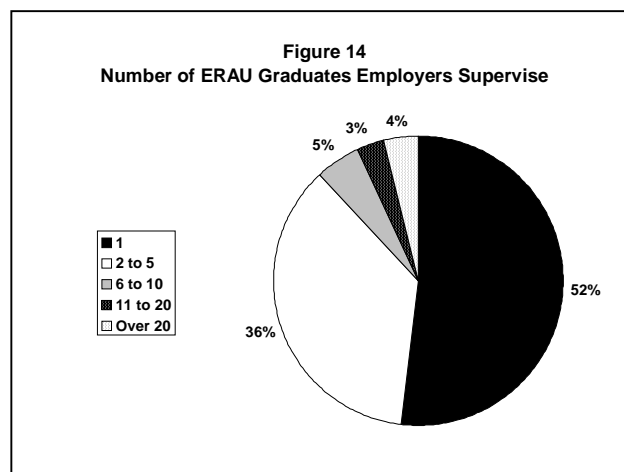

Results from the *Employers and Their Companies* section are summarized here. Note that trend data is not available due to incongruent time periods of previous administrations.

Additional information on *Employers and Their Companies* is provided in the list of tables in Appendix B.

Number of ERAU Graduates Employers Know

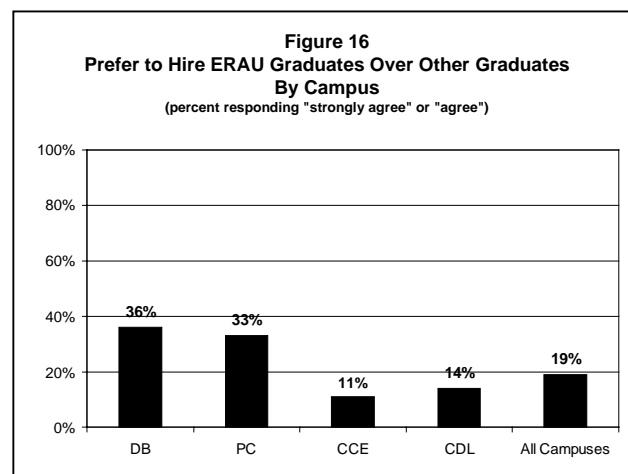

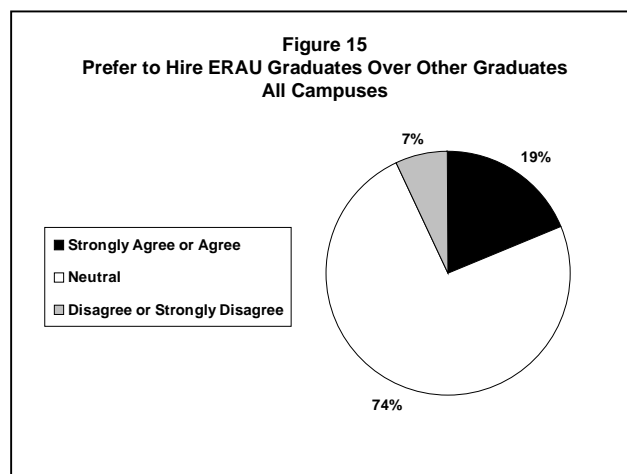

Number of ERAU Graduates Employers Supervise

Employers Who Are ERAU Graduates

11% of the employers who responded to the survey were also ERAU graduates.

Employers Who Prefer to Hire ERAU Graduates

- ◆ A larger percentage of employers of graduates from the residential campuses (Daytona Beach and Prescott) than the extended campuses (CCE and CDL), said that they prefer to hire ERAU graduates over other graduates.
